Bicycle Friendly University Workshop
Bill Nesper, League of American Bicyclists
Wednesday, April 20, 2011
Student Union Building
Simplot A Ballroom

Agenda

1:30 p.m. - Welcome, Introduction, and Purpose

1:40 p.m. - Bicycle Friendly University Program Overview

2:15 p.m. - Issue Identification & Goal Setting

During this segment, participants will be given the scorecard that is used by the League of American Bicyclists when evaluating eligibility of any institution that applies for recognition. The scorecard can also be used for internal review; an opportunity to evaluate the current state of affairs at our institution, and a chance to think ahead. What have we got now? What can we do to move forward?

2:30 p.m. - Break

2:40 p.m. - Campus Tour and Presentation of Existing Conditions

We’re all familiar with the campus, yet undoubtedly we each evaluate its features in different ways. This will be an opportunity to have an “external review.”

3:40 p.m. - Action Planning

During this segment we will collect thoughts and realizations gained during earlier discussions and tour. What measures will help us move to the next level?

4:20 p.m. - Next Steps and Wrap-Up
