Whereas: The congestion and mixed-use format of the central quadrangle presents a real safety concern and

Whereas: Significant accidents involving bicycles and pedestrians have occurred, and with the continued growth of the University and increased use of bicycles and other wheeled devices, this safety concern will only increase, consequently increasing the frequency and severity of accidents,

Be it Resolved: The Professional Staff Association Senate respectfully requests the University initiate control measures to improve pedestrian safety in these areas by establishing a task force to review the concern to make and implement recommendations to enhance safety. The Professional Staff Senate makes the following recommendations for the task force to consider:

- Creation of a dismount zone on the central quadrangle. We suggest this dismount zone extend from the eastern border of the Liberal Arts Building and Albertsons Library to the eastern border of the Multi-Purpose Classroom.
- We suggest placement of bicycle racks on the perimeter of the dismount zone,
- A review of alternate bicycle routes be conducted and enhancements created to make these routes more viable (such as the widening of the sidewalk on the south side of the Liberal Arts and Administration buildings),
- Appropriate signage be installed demarcating the dismount zone, and
- Any other action designed to enhance safety and awareness regarding this issue.

TO BE DIRECTED TO: Dr. Robert Kustra, President Boise State University
                   Dr. Sona Andrews, Provost and Vice President for Academic Affairs
                   Mark Wheeler, Vice President for Student Affairs
                   Stacy Pearson, Vice President for Finance and Administration

Approved in Senate by a vote of: 6 Aye 0 Nay 2 Absent
